

ALL SOULS

Religious Education Program for Children and Youth MISSION STATEMENT

The mission of the All Souls Religious Education program is to promote spiritual formation. We fulfill this vision through:

Nurturing and promoting the spiritual identity and growth of our children, youth and families based on the principles and traditions of Unitarian Universalism

Developing in our children, youth and families the ability to discover and articulate their belief system, and to speak openly about their UU identity and beliefs;

Teaching what it means to be part of a religious community, to be a part of something larger than oneself.

Providing an environment where children, youth and families support one another intellectually, spiritually and emotionally and inspire one another to act on our faith in the world;

Supporting parents in teaching their children about Unitarian Universalism and putting its principles into practice in our daily lives;

Supporting efforts to involve the larger congregation in our mission, because every member has a role to play in developing and nurturing our children and youth in UU principles and life.
